Digital Media Delivery: Macintosh formatted CD or DVD with a contract proof. You must provide a color laser at 100% scale if a contract proof is not supplied. Media will not be returned.

Preferred File: PDF as PDF/x-1a or pdfs created using settings supplied by the production manager.

Other File Types Accepted: Indesign, QuarkXpress, Photoshop, and Illustrator. Please supply all links and fonts used in the document.

For both PDF and native files, please follow these rules:

- 1. Crop and registration marks, if included, should be offset .25" so that they are outside of the bleed area.**
- Make sure that all images are high resolution (300 ppi) and are in CMYK mode. Note that enlarging an image with a resolution of 300 over 125% in the page layout file will lower the resolution to the point that image quality degradation may be noticeable when printed.
- Convert all spot colors to 4 color process (CMYK)
- Our maximum ink density is 300.
- For spread ads, keep all copy and important art at least .25" away from the gutter on each side.

Proofs: A contract proof is recommended, but not required. Only SWOP certified proofs such as Kodak Approval, Creo Iris, and Fujifilm FinalProof are acceptable for matching color on press. A standard GATF or SWOP color bar is to be included on the proof, but is not necessary in the digital file. Go to www.swop.org for more information.
